## Mountain Projects

### Rollingsstone Village

Steamboat Springs, Colorado  
Architect: Vertical Arts

Whether a casino in one of Colorado's historic mountain mining towns, resort structures at the base of a ski area or one of many custom residential projects, Studio **NYL**'s presence in the Colorado mountains continues to grow as we near our fifth anniversary.

Studio **NYL** has just begun work on Rollingsstone Village, a seven building mixed use development in Steamboat Springs. Other notable mountain projects getting underway include a 25 unit development called Oak Meadows outside of Glenwood Springs and multiple historic structure assessments and renovations.

Studio **NYL** works on many custom residences in the mountains, including the 2008 *Mountain House of the Year* as presented by *Mountain Living* magazine; a private residence by Renzo Piano Building Workshop; and an Aspen Residence with avalanche resistant glazing.

Please follow the link below for some examples of Studio **NYL** projects throughout the Colorado High Country including the Roaring Fork Valley, Vail Valley, Yampa Valley, Front Range mountains and the historic gambling towns.
