

Julian Lineham
PE, F.SEI, F.ASCE, C.Eng, FICE
Founding Principal

About

Julian has a truly holistic view of how to put all aspects of a building together and he is passionate about high-end design and complex challenges. His breadth of experience and knowledge of technologies being used around the world make his work unconventional and exciting. He shares, "No challenge is too great. I want to be involved with the most challenging projects taking place nationally and internationally." Outside of work Julian loves time with family, travel, hiking, camping and reading.
