

William P. Babbington | AIA, PE, LEED AP BD+C

Principal | Facade Design Director

About

Will is Principal and the Façade Design Director for Studio NYL's Skins Group. As both an architect and an engineer, he has designed, realized, written, and presented on award-winning and high performance building enclosures on local, national, and international levels. Some of his projects include the National Film Archives with Rojkind Arquitectos in Mexico City, Denver Botanic Gardens Science Museum with EUA, Hennebery Eddy's Rothko Addition at the Portland Art Museum, MIT Site 4 Tower and renovation with NADAAA & Perkins+Will, The Mexican Museum with Zahner and TEN Arquitectos in San Francisco, and the recladding of the Social Security Administration headquarters in Maryland with Snow Kreilich Architects.

Will is a leader and active member in numerous professional organizations such as the American Institute of Architects (AIA), Building Enclosure Technology and Environment Council (BETEC), and American Society of Testing and Materials (ASTM) where he is a voting member. He also serves as the Building Enclosure Council (BEC)'s National Vice Chair and is one of AIA National's representatives for building enclosure matters on ASHRAE's 90.1 energy standard committee.
